## Summary

Software Developer possessing strong creative thinking skills, high energy, and the willpower to bring ideas to life. Dedicated to improving business processes and community relations, in order to boost productivity, exceed standards, and quickly adapt to the ever-shifting world of IT. I am blessed to be a father to 1 girl, and my hobbies include music production, photo/videography, gaming, and a community-oriented leader, supporter, & builder.

## Experience

2020/06 -- 2022/06

### Freelance Web Developer, *TurtleLight MGMT*

- ✎ Stay-at-home father, improving skills and programming ability. Working on personal projects and freelance work.
- ✎ Supporting the creation of social media/web apps/tools for multiple clients / artists in network.
- ✎ NFT / Web3 project support and advising. My new learning goals are related to Typescript, Python, Rust, Go, Svelte, & .NET Core.
- ✎ Building services such as Live streams/chat rooms, (web sockets), Dapps, community-focused analytics projects.

2019/08 -- 2020/03

### Software Engineer I, *Alkami Technology*

- ✎ Participated in Alkami's first-ever .NET Apprenticeship program.
- ✎ On the Alloys team, I helped to maintain Alkami's digital banking web application.
- ✎ A center of focus on the development of a robust and reliable - Card Management, ADPP, Payment, etc. - experience for the user.

2017/09 – 2019-05

### School break *at Richland College.*

2016/10 – 2017-09

### Web Developer, *Exigo Office Inc.*

- Client web app spin up – provide clear explanation of tasks performed, and take time to produce clean, readable code.
- Configure shopping processes, vital to keep customer/client information secure and provide reliable service.
- Deliver comprehensible commentary/code that another developer can understand and easily walk through.

## Education

2016-03 – 2016-06

### Web Development Immersive, *General Assembly*, (Seattle, WA)

12 week immersive Full Stack (MEAN) course with 480 hours of in-class instruction, 50-70 hours of weekly work and the creation of 4 custom projects showcasing the successful application of multiple programming languages.

## Skills

- |          |           |            |              |          |             |
|----------|-----------|------------|--------------|----------|-------------|
| ● HTML   | ● CSS     | ● C#/.NET  | ● JavaScript | ● NodeJS | ● WordPress |
| ● Vue.js | ● Agile   | ● SQL/psql | ● MongoDB    | ● VS/Git | ● Elementor |
| ● jQuery | ● Web API | ● WebRTC   | ● Azure/AWS  | ● AJAX   | ● Rust      |
